**Montrose, Iowa 52639**

About the school....

**ARIDE is a free 16-hour training option bridging the gap between SFST and DRE for Law Enforcement officers.**

**Course Description:** This is an intermediate level course designed to offer more than a basic understanding of the impairing effects of drugs (illicit and licit), alcohol, and/or the combination of both. The officer must be able to administer and interpret the horizontal gaze nystagmus (HGN) test for alcohol-impaired suspects, and be proficient in the administration and evaluation of the battery of tests involved with SFST. The officer will be required to pass an SFST proficiency examination the first day of training. The student who successfully completes this training will be able to recognize that an individual may be under the influence of a drug or drugs other than alcohol, or under the combined influence of alcohol and other drugs, or suffering from some injury or illness that produces signs similar to alcohol/drug impairment. Additionally, the student will be able to recognize the broad category or categories of drugs inducing the observable signs of impairment.

County Attorney's and Law enforcement officers actively involved in proactive OWI and traffic law enforcement are encouraged to attend this hands-on intensive two day training program. County Attorneys are encouraged attend all or any part of the two day training. **All training aids, materials and supplies will be provided at no cost to the participant by GTSB.**
